

How to join a VMR meeting from an iPad or iPhone

AstraZeneca and external participants can join a VMR from an iPhone or iPad via the Safari web browser.

Both options allow for full audio and video participation in the meeting with the ability to view the content.

There is an option to download the Cisco Meeting App to your device as an alternative, a PDF guide is available with these instructions on.

- 1 Open the WebRTC link in Safari.
example: <https://webrtc.vc.astrazeneca.com/>
 - 2 Enter your display name for the VMR.
 - 3 When prompted, “Allow” access to Microphone and Camera.
 - 4 The drop down menu will allow you to open the meeting from the Cisco Meeting app (if installed), or continue using Safari.
- Select “Join Meeting” to enter the VMR.
